ABOUT ME

Self-taught motion graphics editor with hands-on experience creating short-form video content since 2022. Skilled in two distinct professional edit styles — cinematic transitions and typography-driven text animation — along with 3D motion edits and logo design. Runs a growing Instagram page (@_flourhubby_) as a personal portfolio, with 40+ published edits and 1.5K followers built from scratch. Detail-oriented, self-driven, and always experimenting with new effects, transitions, and visual styles.
