Subject: Application for Motion Graphics Designer

Dear Hiring Team,

I am writing to apply for the Motion Graphics Designer position at SoftNEP. With more than eight years of experience in 2D animation, motion graphics, and video editing, I am confident in my ability to create engaging, high-quality visual content that supports your company's creative and marketing goals.

Throughout my experience, I have developed strong expertise in Adobe After Effects, Premiere Pro, Illustrator, and Photoshop. I have worked on explainer videos, typography animations, promotional content, and other motion-based projects that require creativity, attention to detail, and a clear understanding of visual storytelling.

In addition to my professional experience, I have built a personal Instagram brand with more than 1,500 followers and created over 40 original motion edits since 2022. This experience has strengthened my understanding of social media trends, audience engagement, content performance, and the importance of producing visually appealing content for digital platforms.

I am a creative, adaptable, and detail-oriented professional who enjoys transforming ideas into compelling visual stories. I am also fully prepared to navigate the visa sponsorship process, if required, and would welcome the opportunity to contribute my skills to the SoftNEP team.

My CV and portfolio are attached for your review. I would appreciate the opportunity to discuss how my experience and creative abilities align with the requirements of this position. I am available for an interview at your earliest convenience.

Thank you for considering my application. I look forward to hearing from you.

Yours sincerely,

Tilasmi Subedi
